

COMFORT YOU DESERVE

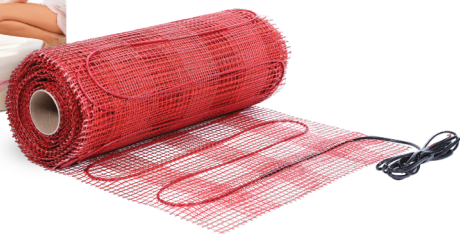

nVent NUHEAT Mesh

Electric Floor Heating System

NUHEAT

THE COMFORT YOU DESERVE

nVent NUHEAT Mesh is an easy-to-install and modifiable electric floor heating system best suited for square or rectangular areas where onsite adjustments are required.

The nVent NUHEAT Mesh floor heating system consists of a heating cable attached to a self-adhesive mesh which allows installers to stick the heating system onto the subfloor during the layout process. Simply roll out onto the subfloor and cut/turn the roll until the desired floor area is covered.

The nVent NUHEAT Mesh floor heating system is suitable for bathrooms, showers, kitchens, entryways and other living areas.

SPECIFICATIONS

Operating voltage	120 V
Power output	12 W/ft ²
Minimum bending radius	0.5 in
Minimum cable spacing	3 in
Maximum ambient temperature	194°F (90°C)
Minimum installation temperature	50°F (10°C)
Heating cable	2-wire, grounded, twisted pair with PVC outer jacket
Cold lead	2-wire, 16-18 AWG plus ground braid; 10 ft length

INSTALLATION

FAST FACTS

- Heats tile, stone, laminate, engineered wood, or luxury vinyl floors
- Zero EMF (electromagnetic field) cable design
- 13 kit sizes from 12 ft² to 120 ft²
- Available in 120 V
- Fiberglass, self-adhesive mesh
- Minimal effect on floor height
- Thin cold lead and connection joint
- Large variety of sizes and adaptable to any room size and shape

FAQS

Q: CAN NVENT NUHEAT MESH REPLACE MY ELECTRIC BASEBOARD HEATERS?

A: Yes, nVent NUHEAT Mesh produces 12 W/ft² for a heat output of 41 BTU/ft².

Q: CAN I USE NVENT NUHEAT MESH TO REPLACE MY HOT WATER RADIATOR?

A: Yes, nVent NUHEAT Mesh is a viable alternative to water radiators. Invisible and maintenance-free, nVent NUHEAT Mesh is a perfect heating option for renovations or additions.

Q: WILL NVENT NUHEAT MESH HEAT THE WHOLE ROOM OR JUST THE FLOOR?

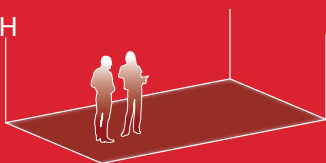

A: The whole room! nVent NUHEAT Mesh transforms the entire floor area into the room's heat source, guaranteeing even, consistent heat.
