

**COMFORT YOU DESERVE**

## THE FLOOR HEATING THAT SUITS YOU

Why should you have floor heating in your property?

### **COMFORT**

Walking on a comfortable warm floor is something you will never regret! Tiles are cold to walk on. With floor heating you can have the benefit of an easy to clean, hard wearing tile floor with the warmth of floor heating.

### **DRIES YOUR FLOOR**

Wet floors/rooms will dry much faster, making them easier to clean and keep clean.

### **GOOD INVESTMENT FOR YOUR HOME**

When you come to sell your house, having floor heating will be seen as a real benefit.

### **EASY TO INSTALL**

With systems starting at only 3mm thick and laid directly onto your existing subfloor, just under the tiles, it is much quicker and easier to install than you may think.

### **QUICK HEAT UP**

Installed close to the floor surface, the room warms up quickly with a uniform heat distribution across the room.

### **CHEAPER TO PURCHASE THAN YOU MAY THINK!**

Floor heating for a typical bathroom costs from as little as £150.

### **ENERGY EFFICIENT**

- It is possible to set your thermostat 2 degrees lower compared to conventional radiators without any loss of warmth.
- Thermostats are fully programmable 7 days a week offering flexibility and efficiency of use.
- Insulation boards are available to increase the efficiency of the system further.
- Can provide complete room heating or complimentary heating to your existing system.

**RAYCHEM**

## WHY CHOOSE A NVENT RAYCHEM FLOOR HEATING SYSTEM?

### PRODUCTS DESIGNED TO BE EASY TO USE AND HARDWEARING

High quality products designed and made by RAYCHEM - an extremely tough fluoropolymer jacket offers a significantly higher quality than PVC cheap alternatives. Designed to last longer and be very difficult to damage, RAYCHEM products have been designed over many decades, tried and tested to be quick and easy to use by installers - e.g. the QuickNet mat system is fully self-adhesive, the cable is underneath to protect it and the cable can be loosened from the mat for awkward shaped areas.

### LARGE RANGE OF PRODUCTS FOR ALL APPLICATIONS

- Products suitable for timber and concrete subfloors and also for tile, stone, vinyl, laminate and wooden floor coverings.
- Range of easy to use thermostats - digital and touchscreen

### FREE DESIGN SERVICE

- Tailored to your project
- 2D design, 3D drawing and a bill of materials so you know that you have the right product

### 12 YEAR TOTAL CARE WARRANTY

We are so confident in the quality and durability of our products, that it is in the extremely rare event that our product would fail, if it is not possible to repair the floor, we will not only provide you with a new product and pay the costs of installing it, we will also take care that the floor covering is repaired or replaced to the equivalent standard.

### ECONOMIC TO RUN

Did you know that running floor heating can cost less than a newspaper a day?

**One week = £0,80**

Per week = £0,80

Per week = £1,16
