

COMFORT YOU DESERVE

THE FLOOR HEATING THAT SUITS YOU

WRAP YOURSELF IN A BEAUTIFULLY WARM FLOOR.

Especially in the bathroom, a warm floor contributes to a luxurious spa feeling, making it a place to relax and indulge in a warm atmosphere of calm and tranquillity. Whatever floor you choose, nVent RAYCHEM offers the most efficient, flexible, and fast acting solution for your immediate comfort. Wrap yourself in the luxurious warmth of a RAYCHEM heated floor. It really suits you.

COMFORT YOU DESERVE

Why Promote Electrical Floor Heating to your Customers?

- Offer your customers a **comfortable warm floor** hassle-free, at an **affordable** price
- When towel warmers aren't sufficient to fully heat a room, floor heating can provide the necessary complimentary heating
- Can be used for complete room heating or as a compliment to an existing heat source. Different ranges are available depending on the power output required.
- **Wet floors will dry much faster**
- Electrical underfloor heating causes less air movement hence **less dust** making the room **easier to clean**
- **Running costs as low as 1p per m² per day!**
- RAYCHEM offers a range of **insulation boards** to reduce heat up time and keep running costs low
- Systems available from only **3 mm in height** that can be installed directly onto the existing subfloor
- In the unlikely event of damaging the cable, **repair kits are available** and RAYCHEM's technical field service team can visit to pinpoint where the fault is.
- **12 year Total Care Warranty** which, if a product failure, includes repair or replacement of the products and restoration of the floor free of charge
- Sales, design and installation **training available** by a RAYCHEM representative at your premises
- **Heated display stands and various other sales tools** are available to help you promote floor heating to your customers

Did you know that running floor heating can cost less than a newspaper a day?

One week = £0,80

Per week = £0,80

Per week = £1,16
