

CONNECT AND PROTECT

INSTRUMENTATION & ANALYZER HEATING SYSTEMS INTEGRATED WITH TURNKEY HEAT TRACING SOLUTIONS

nVent and O'Brien:
Over 100 Years of Combined Expertise

INCREASED RELIABILITY AND COST SAVINGS THROUGH INTEGRATED SOLUTIONS

A Heat Management System is much more than just heating cable. We understand the customers' needs of having a complete and fully integrated solution. With nVent's experience as the premier provider for industrial turnkey heat tracing solutions, and O'Brien's best in class instrumentation solutions, our customers are provided with outstanding value, unsurpassed quality and guaranteed performance through nVent's Warm Pipe Warranty.

Working together, nVent and O'Brien bring the integrated solutions which ensure consistency throughout front end planning, engineering, material procurement, and construction. Additionally, the engagement of the nVent/O'Brien team brings to bear over 100 years of combined expertise in the field of process and instrumentation heating. Our extensive experience relating to design techniques and proven execution strategies help our clients realize lower Total Installed Cost (TIC) and lower Total Operating Cost (TOC) on their projects.

TRUST THE HEAT TRACING AND INSTRUMENTATION EXPERTS

NVENT

As the world's largest provider of heat tracing and complete Heat Management Systems (HMS), nVent provides innovative products and turnkey solutions under market-leading brands—nVent RAYCHEM and TRACER. Our premier turnkey solutions include full life cycle support—ranging from front-end through detailed engineering, project management, construction and maintenance services. Our global experience and network of heat tracing service centers execute projects anywhere in the world and offer our full array of HMS services.

O'BRIEN

For over 50 years, with expertise in heat transfer and process accuracy of instrumentation, O'Brien has provided customers with world class, engineered products and best practice solutions for field instrument installations. O'Brien provides solutions that complete the most demanding instrumentation, analytical and mechanical designs and installations for the most demanding applications throughout the world. TRACEPAK tubing bundles, VIPAK and SADDLEPAK instrument mounting systems are best in class products.
